- **November 13-17th**, International Education Week screenings in College of Public Health Atrium: A Closer Walk— is the first film to depict humankind's confrontation with the global AIDS epidemic. A Closer Walk was conceived with the late Jonathan Mann, architect of the World Health Organization's response to global AIDS. For the film, more than 50 women, men, and young people have been interviewed or profiled in the following regions and locations: Uganda, South Africa, Haiti, Switzerland, India, Nepal, Ukraine, Cambodia, and various locations in the United States including New York City, Kansas City, San Francisco, and Cambridge. The film includes: His Holiness the Dalai Lama, UN Secretary General Kofi Annan, and Bono of U2. The interview with His Holiness was His first on the subject of "universal responsibility" in the context of the global AIDS epidemic. Glenn Close and Will Smith are the film's narrators. COPH Auditorium (tba).

**Rx For Child Survival**—video series about the growing crisis in global health. Millions of children die between birth and age 5 each year who would have a good chance at life if they had access to five basic and inexpensive health interventions:
- Vaccinations to fight childhood diseases, including measles and tetanus
- Insecticide-treated netting to stop mosquitoes that carry malaria
- Vitamin A and other micronutrients to help fight infection and prevent nutritional deficiencies
- Oral rehydration packets to help reduce diarrhea-related illness and deaths
- Antibiotics to fight pneumonia and antimalarial drugs
  Additionally, where appropriate, there are significant health values in mothers’ breastfeeding their infants.

*USF Health events are co-sponsored by College of Nursing; Division of Infectious Disease, College of Medicine; College of Public Health; Global Health Students Association; International Health Service Collaborative; United Nations Association of Tampa Bay; USF Health International Programs; University of South Florida*
